Cancel restores

Overview

When you start a restore, a Restore bar appears. As long as a restore is in progress, you can cancel it from the restore bar.

Procedure

To cancel a restore:

1. On the Restore bar, click
to expand and view the restore details. The **Restore** bar expands to a popup and displays the restore progress.

2. To cancel all the ongoing restores, click 

   ![X](image)

   on the **Restore** popup. You can also click

   ![Stop](image)

   adjacent to the restore activity to cancel it.

3. Click **Yes** on the confirmation message.
