Stop workspace from synchronizing with your device

Overview

When you stop a workspace from synchronizing, the workspace is deleted from the inSync Share folder across all devices. However, all subsequent updates that are made to the workspace content will not be available to the workspace on your device.

Procedure

To stop syncing

2. Click Workspaces. The Workspaces page appears.
3. In the Workspaces tab, click the row of the workspace for which you want to stop syncing, and then click More > Don't Sync To My Devices.
